Chief, EE

**Operational Clearance Situation of KIBITZ Chain**

1. We have neither requested nor received provisional or full clearance for KIBITZ 10a, 11a and 12. These members of the KIBITZ chain represent the only fairly "old" agents on whom no action has been taken.

2. We should like to initiate clearance procedures on all of the above types. We therefore need PRQ Pt. II for K-10a and PRQs Pts. I and II for both K-11a and 12.

3. We can no longer continue to obtain project approvals, as has sometimes been done in the past, for projects involving agents who have not received clearance.
